Connect with Perkins+Will Throughout the Month

April is a busy month with our experts out in the field at many events. We hope you connect with us in person.

Saturday, April 1

Courtney Johnston and **Nicki Estes** will present 'Core Value - Designing Perkins+Will LEED, WEEL and Fitwell Platinum' at SCALE: The ASID National Student Summit at The University of Oklahoma in **Norman, Oklahoma**. Using the new Perkins+Will Dallas office as a case study, this session will walk through the practical application of designing for the WELL Building Standard, as well as Fitwell, and in connection with striving for LEED Platinum.

Monday, April 3

Patrick Glenn will present "Effective Storm Shelter Integration Strategies: How to embrace these design challenges and construction costs effectively in your next school facility" at the 2017 Association for Learning Environments Southern Region Annual Conference in **New Orleans, Louisiana**. As many municipalities are adopting 2015 International Building Code, storm shelters are becoming a requirement for new schools and schools with additions. This session will review the process of locating and designing storm shelters to meet the current requirements of ICC 500 (International Code Council) and FEMA P-361.

Thursday, April 20

Cesar Garcia-Pons will be part of the Miami Beach United panel, 'The Character of a City', in **Miami, Florida**. Hear from local leaders, architects, and city planners on what makes one city more desirable than another.

[LEARN MORE+](#)

Eric Brossy de Dios will be part of the panel 'Understanding Savings By Design Through the Eyes of Four Architects' at the U.S Green Building Council Los Angeles Chapter (USGBC-LA) Municipal Green Building Conference and Expo in **Los Angeles, California**.

[LEARN MORE+](#)

Leigh Christy will be part of the panel 'Urban Harvest: Toward a Resilient Food Infrastructure for Healthy Cities' at the U.S Green Building Council Los Angeles Chapter (USGBC-LA) Municipal Green Building Conference and Expo in **Los Angeles, California**. The panel will share case studies on the forefront of incorporating a resilient, sustainable food system into California's urban environments. The discussion will focus not only on making the physical aspects of our

food system sustainable, but also how an alternate view of this system could positively impact our economies and our environments.

[LEARN MORE+](#)

Gabrielle Bullock will be part of the keynote panel 'Not Why, But How: Diversity, Equity and Sustainability' at the U.S Green Building Council Los Angeles Chapter (USGBC-LA) Municipal Green Building Conference and Expo in **Los Angeles, California**. This session will focus on tools and ideas for attendees to take back to their place of work. Concepts around sustainability and social equity are best advanced by contributions of people with diverse backgrounds, beliefs and cultures.

[LEARN MORE+](#)

Doug Green will participate in the panel 'A Match Made in Heaven? In-house – Outside Counsel Relationships – the Good, the Bad, the Ugly!' at the American Bar Association Annual Meeting Forum on Construction Law in **Washington, DC**. This session will teach outside counsel how to make a love connection with inside counsel and how to keep the romance alive as the years go on.

[LEARN MORE+](#)

Friday, April 21

Gabrielle Bullock will be part of the panel 'The Generation Gap: Understanding the Changing Perceptions of Gender's Role in the Workplace' at the inaugural Building Leadership: Women in Architecture, Engineering & Construction conference in **Chicago, Illinois**. This session will discuss how to strengthen your personal identity to find success, how to cast off roles that have traditionally been assigned to women, celebrate the differences of women, and many more.

[LEARN MORE+](#)

Sunday, April 23

Doug Pierce will speak on sustainability and resilience at the third annual Rochester Earth Fest Expo in **Rochester, Minnesota**.

[LEARN MORE+](#)

Bill Doerge will present "Integrated Care – The Continuum of Care Concept and its Impact on the Spaces we Plan and Design" as part of the China Hospital Construction and Development Conference (HCDE) in **Hangzhou, China**. Using project case studies, this session will shed light on the topic of continuum of care and analyze its impact on the spaces that we plan and design.

[LEARN MORE+](#)

Tuesday, April 25

Suzanne Drake will present at AIA San Francisco, 'Transparency Tools and How to Use Them to Achieve Healthier Buildings,' in **San Francisco, California**. This session will lead participants

through the materials health screening process by quickly highlighting the differences, and identifying the four steps required to get to safer products.

[LEARN MORE+](#)

Jon Penndorf will be a panelist on the topic of sustainability and urban resilience as part of the ULI Washington Real Estate Trends Conference in **Washington, DC**. This session will cover trends in sustainability and how the DC design and construction industry is shaping and working with the trends, as well as how the DC government is fostering sustainability.
